

SACHIN KUMAR

Frontend Developer | MERN Stack Developer

Noida Sector 15, UP, India | 6396175628

sachiinprajapatii@gmail.com | GitHub | LinkedIn | Portfolio | Open to Full-Time / Remote

PROFESSIONAL SUMMARY

Results-driven Frontend Developer with hands-on experience building scalable, high-performance web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Proven track record of improving application performance by up to 30%, reducing page load times, and delivering seamless user experiences. Skilled in Tailwind CSS, RESTful API integration, and full-stack JavaScript development.

TECHNICAL SKILLS

Frontend: React.js, JavaScript, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, RESTful API Development

Database: MongoDB, Mongoose

Tools & Platforms: Git, GitHub, Vercel, Render, Postman, Android Studio, VS Code

Core Competencies: Performance Optimization, Lazy Loading, Component Architecture, Responsive Design, API Integration

PROFESSIONAL EXPERIENCE

Frontend Developer | ConsultIT

March 2026 – Present

React.js | Node.js | Express.js | MongoDB | Tailwind CSS

- Engineered responsive, component-driven web applications using React.js and Tailwind CSS, delivering consistent cross-browser and mobile-first experiences.
- Boosted application performance by 25% through component rendering optimization, memoization, and efficient API call management using React hooks.
- Reduced average page load time by 30% by implementing code splitting, asset compression, and browser caching strategies.
- Handled 100+ daily active user interactions with smooth, responsive UI through robust state management and error boundary implementation.
- Collaborated with backend teams to design and consume RESTful APIs, reducing integration defects by 20% through thorough testing protocols.

PROJECTS

BizManager | *React, Node.js, Express.js, MongoDB Atlas, Capacitor, JWT, AndroidStudio*

- Built a full-stack Android app for small business owners to manage customers, payments, and records
- Packaged web app into a native Android APK using Capacitor with production-grade signed release build

Universal Media Downloader | *React.js, Node.js, Express.js, MongoDB*

- Built a full-stack media downloader web app supporting YouTube, Instagram, and 50+ platforms using React, Node.js, yt-dlp, and gallery-dl with real-time download progress.
- Implemented multi-platform backend on Render with MongoDB for download history, CORS handling.

EDUCATION & CERTIFICATION

Bachelor of Technology – Computer Software Engineering

2021 – 2024

Maa Shakumbhari University | Saharanpur, UP

- IBM Enterprise Data Science Professional Certificate — IBM, 2024
- IBM Journey to Cloud: Envisioning Your Solution — IBM, 2024
